

CryoMelt Truck & Mine Anti-Icer

*CryoMelt™ is a premium engineered Bio-Polymer Organic liquid that can be used on the inside of a truck body before loading with aggregates & other materials in cold weather to prevent materials from freezing in the truck body. It can also be used as a deicer (ice remover) as well. There are many preventative uses for **CryoMelt™**. Other uses include spraying under the body on drop axles, hydraulic connections, hinges, tarp systems & running boards. Mining uses are belt conveyors, chains, sprockets, gates, crushers and many more. It can even be used on the pavement around your facility to prevent slip & fall accidents. **CryoMelt™** is virtually chloride free with less than 2% sodium chloride and no extremely corrosive calcium or magnesium chlorides.*

Keep aggregate hauling trucks & mining equipment safe from freezing in the winter!

PHYSICAL PROPERTIES

Appearance/Odor: Medium Amber liquid with mild odor

Weight: 9.2 – 9.8 lbs / gal

Product freeze point: -0°F (-17.7°C)

pH: 6.0 – 9.2

Specific Gravity: 1.15 – 1.24

NO CALCIUM OR MAGNESIUM CHLORIDE IS USED IN THE FORMULATION OF THIS PRODUCT!
